LEADERSHIP

Generative-AI(Basic)

SQL

PERSONAL PROJECTS

PDF merger tool

- Developed a Javascript-based tool to merge multiple PDF files into single document.
- Git-Hub: https://github.com/vanshika2424agr/pdf_merger

Fake News Generator & Detector

- Developed a system that generates and detects fake news using Generative AI and Natural Language Processing techniques.
- Implemented machine learning models to analyze news content and classify it as real or fake with improved accuracy.
- Integrated text preprocessing, feature extraction, and model evaluation to enhance detection performance.
- Demonstrated the potential of AI in combating misinformation on digital platforms.
- Git-Hub: <https://github.com/vanshika2424agr/fake-news-generator-detector>

CSK IPL Fan Page

- Created a fan-based website dedicated to Chennai Super Kings.
- Displayed team information, player details, match schedules, and news.
- Designed an engaging UI with team-themed colors and layout. Used React for dynamic content.
- Git-Hub : https://github.com/vanshika2424agr/csk_fans_website

Personal Portfolio Website

- Built a responsive portfolio website to showcase projects and skills.
- Implemented modern UI using React.
- Integrated sections like About, Projects, and Contact.
- Deployed online for public access.
- Git-Hub: <https://github.com/vanshika2424agr/Portfolio>
